The Logan Fund-Matters in England and Ireland-Colliery Disaster in Belgium.

[SPECIAL DISPATCHES TO THE RECORD UNION.] AT THE NATIONAL CAPITAL.

The Logan Fund-Sherrill's Death-Of Interest to California. Washington, January 4th.-Considerable curiosity is felt by the Republican Senators to know what Senator Stanford, of California, will do for Mrs. Logan. He was approached with a subscription paper re-cently and replied that he had never signed a subscription in his life, and did not propose to begin now. He said that General Logan was a very dear friend, and that he entertained a very high regard for Mrs. Logan. Mrs. Stanford, he added, felt quite as badly to hear of General Logan's death as he did. He said further that he knew the General died poor, but that Mrs. Logan should not suffer. He intimated that in good time and in his own way he would add his gift to those of other citizens for Mrs. Logan's relief.

Mrs. Logan's relief.

Senator Cameron, of Pennsylvania, is another wealthy man who declined to sign the subscription. He said that Mrs. Logan would hear from him at the proper time, he hoped, in a satisfactory manner, and in a way that would do her just as much good as if his name was printed in the newspapers with the others. Senator Cameron lds General Logan's notes for money loaned to the amount, it is said, of about \$2,500. He may make the widow a present

THE DECEASED RAILROAD AGENT. Washington, January 4th .- Charles H. WASHINGTON, January 4th.—Charles H. Sherill, Agent of the Southern Pacific Railroad Company in Washington, who died suddenly of heart disease this morning, had been in the employ of the company here at a salary of \$10,000 per annum for about fifteen years. By lucky speculation he had amassed a fortune. Governor Stanford said to-day: "I met Sherill about twenty five years ago. When he was a rail." twenty-five years ago, when he was a rail-road contractor in New York. Sherill was a warm friend of my brothers. In some respects he was a remarkable man. He had a knack of finding out everything that re-lated to bills in which railroads were in-terested, and his judgment of men and measures was seldom wrong. His pre-dictions of what committees and Congress would do with our bills were invariably correct. He never allowed himself to be-

Increased Attendance and Interest of Chicago People. CHICAGO, January 4th .- The weather has

been milder to-day, and a light snow is falling. The attendance at the Citrus Fair is greatly increased this evening. A num-ber of well-known Chicagoans are present, accompanied by ladies. The hall was well filled all evening. A bulletin-board showing the maximum and minimum temper-ature for Sacramento each day excites considerable curiosity. The figures run from 50° to 80° higher than Chicago. The fruit continues in excellent condition, and there is a good surplus to replenish from. The fair can certainly run the balance of the week, and possibly longer. The fast train was about fifty minutes had not escaped. The unknown body is late and was running at the rate of sixty miles an hour. Passing Republic, a small station, like a flash, they rushed along to a curve one mile west of town, where suddenly the engineer saw a freight train under full headway within one hundred yards ured ankle; Marcus Smith, of Springfield. der full headway within one hundred yards of him. He at once applied the brake and reversed his engine, but it did no good, the next instant the crash came, telescoping the coaches and pulling them upon each other. To add consternation to the horrible scene a fire broke out in the smoking car and soon spread to the other cars. Many were killed outright, while others were wedged in among the broken cars. Slowly the cars were consumed by flames, while the screams of the wounded and dying were heartrending; but no assistance could be given until a farmer, awakened by the crash, came and with other neighcould be given until a farmer, awakened by the crash, came and with other neighbors worked like heroes to save the perishing. At this writing nineteen dead bodies have been recovered, and they lie burned and disfigured in the snow beside the track. Help was sent from Republic and this city as soon as the news was received. It is a fearful sight, and recalls the Ashtabula horror in the winter of 1877. The thermometer is three degrees below zero.

One of the passengers of the ill-fated train says the train was the Baltimore and Ohio limited express, which left Washington at 10 a. M. yesterday. At 2:15 in the morning he was awakened by being thrown violently from his berth. The train consisted of an engine, baggage-car, one coach

The telescoped cars caught fire from a stove, and the mangled and crushed passengers, imprisoned in the shattered wreck, shrieked in agony as the flames enveloped them. The uninjured passengers and the residents of the neighborhood set to work to aid the wounded passengers in the burning cars, rescuing all who could be reached. The baggageman of the express was thrown through the roof of the car, escaping with a broken leg. The express messenger, who was sitting beside him, was killed instantly.

TRVING SCENES TIFFIN (O.), January 4th.—The collision ccurred one mile from the town and nearly half a mile from any dwelling, and at 2 o'clock in the morning. It is related of one Bradley, a prominent Knight of Labor from Washington, that, while the flames were bursting from a car window, which had been broken in the crash of the collision, he by some means put out his hand and threw his watch and pocketbook to those whom he could see on the outside. He was pinioned on the inside, and was being roasted alive, but those who saw him were unable to render him the least relief. They could hear the frenzied and horror-stricken man as he madly endeavored to burst the barrier that held him

The charred remains of the express messenger consisted simply of two thigh bones, which were found in the debris of the car.

The engineer and fireman of the freight reversed their engine and jumped for the snowbank. The engineer of the express reversed his engine and sprang to the left. The fireman endeavored to get out to the right, but being overcome with fright fell close to his crushed engine and was badly burned, but not beyond recognition. His body has been placed in a neat casket and is now at an undertakers in Republic, awaiting the arrival of his relatives.

All the mail, express and baggage were ourned, including large sums of money.

The scene at Chamberlain's establishment was one calculated to make the stout-est heart quail. Nine shapeless trunks of human beings were stretched in a row like so many charred logs. There were no doubt many more perished in the wreck, as the number of persons who escaped and the remains recovered in other words are distress before or after cating, loss of appetite, irregularities of the bowels, wind or gas and pain in the stomach, heart-burn, sour

accident at an early hour this morning. The "Modoc" train from Albany approached the depot an hour behind time, and running at the rate of about thirty-five miles per hour. When within a few rods of the depot five of the six cars in the train were thrown from the track by a broken wheel under the baggage car. The train consisted of an engine, an express car, bag-gage car, smoking car, day coach and two sleepers. The engine and express car kept on the main track, but the baggage car was on the main track, but the baggage car was thrown against the engine of the local west-bound freight train, which had just pulled in and was standing on the west-bound main track. The freight engine was thrown on its side and completely wrecked. The baggage car, smoking car and day coach immediately took fire and were consumed. ### A SUBJECT FOR PROMPT ACTION.

The Surveyor-General of the State, his report for the fiscal year ending June 30, 1886, recommends that all State timbe lands be withheld from sale, and that Congress be asked to withdraw from sale all unsold United States lands known to be timbered. The reasons he assigns for these recommendations are that the denudation of our mountain slopes is now materially affecting, by reduction, the water necessary to the supply of springs and streams; that when winter rains come on, the unprotected mountain flanks send down the water with a suddenness that too quickly fills the water courses, and thus disastrous floods are more likely to occur. This is a human lives over and through perilous both of the "boycotted" street railways in legislation to promote and protect forest growth.

Some twelve years ago the RECORD-Union drew attention to the wisdom of forest timber growth of our hills and mountains. It has advocated warmly from that time to this the necessity of forestery laws for California, pointing out the important relation between forest growth and climate, growing timber preservation and the habitability of the great valleys Others of the press seconded the effort, and united in the advocacy of preventive measures. But the people were not until recently convinced of the need for action. Indeed, until quite lately, the warnings and advice were treated with something State scientists were so far misled as to advise that no action was necessary, and that the citizenship of the State. wherever mountain timber was destroyed an abundant growth sprang up, even more dense than the original. This was deceptive. LEGISLATIVE NOTES.

The involved, not to say queer, ruling of Lieutenant-Governor Daggett in the matter of the motion of Senator Moffit, touching the adoption of rules for the government of the the motion of Senator Moffitt, touching the adoption of rules for the government of the Senate, continues to be the subject of criticism and plenty of banter, which most of the Democrats do not take calmly. The decision that the rules adopted did not apply to temporary organization, is by the adverse critics correctly pronounced stultification by the Lieutenant-Governor, since he "went back" on his decisions of two years ago, when he held that a two thirds vote was necessary to amend the rules of the Senate. The Republicans claim—and some of the lead ng Democrats admit it—that only the Senate. The Republicans claim—and some of the lead ng Democrats admit it—that only the power exercised by mere force of numbers served to wrest from the lepublicans the right to name the committees, and this deprivation was, after the adoption of the rules, made possible only by the aroitrary act of the Lieutenant-Governor. The parliamentary skill and foresightedness of Senator Vrooman, who led the Republican fight in the issue, receive high and warm commendation, and are fraukly confessed by his Democratic colleagues, who know that under the law of the Senate he was in the right. He won his fight gallantly, and its fruits were only wrested from him by force of superior numbers. The Democratic majority cannot afford to win many such hollow "victories."

### WONDERS OF GOLDEN CALIFORNIA. The "Inter-Ocean" Wishes to Know i

There is any Limit to Them. The Chicago Inter-Ocean of issue jus prior to opening of the Central and Northern California Citrus Fair in that city has the following:

In view of the fact that a citrus fair is to be held in Chicago in midwinter, wherein an exhibit of oranges, lemons, figs, dates olives, raisins and every species of the cit rus kingdom will be made, leads one to ask the questio Will the wonders of golden, sunny California ever cease? It would seem not, and were it not for the fact that we are daily brought in contact with the marvelous productions of the Pacific slope by means of rapid transportation, etc., we should in many instances be led to dis credit what would otherwise sound as fab ulous in character. Seeing is believing however, and our citizens will be pleased to learn that an opportunity is soon to be afforded them whereby they can witness with their own eyes products from Central and Northern California, which to describe on paper would baffle the most flowery and gifted imagination. The Inter-Ocean re porter had the pleasure of conferring with Mr. Eugene J. Gregory, of Sacramento, Cal., who is here in the interest of the fair, which will be held in Cavalry Armory, the formal opening to take place Wednesday even ing of this week, when it is expected that Mayor Harrison will deliver the open-

After considerable discussion as to whether the services of a third assistant were required in not, the resolution was referred to the Combittee on Attaches, which is to be hereafter our most prominent citizens will be present. During the conversation with Mr. Thomas Rennison, of Monterey, offered a resolution to the effect that the Secretary of State eauthorized to purchase 100 copies of the relised codes for the use of the members.

Knox of Los Angeles moved to amend by uthorizing the Secretary of State to purchase ne pocket edition and pay for them out of the Ontingent fund of the Assembly.

Another member offered an amendment to me amendment, to the effect that the books he almendment, to the effect that the books he close of the session.

Gregory, who is acting in the capacity of general manager, we learned many facts concerning the adaptability of California climate and soil in the production of deciduous and citrus fruits, vegetables, cereals, etc., that have not been generally understood and appreciated by those desirous of making investments in the Golden State. Heretofore the home-seeker has not been afforded the information. Gregory, who is acting in the ca-pacity of general manager, we learned has not been afforded the information which is calculated to demonstrate the advantages in price, quality of land and products that one portion of California may have over another. The purpose, then, of the present Citrus Fair is to familiarize the people of Chicago and the great Northwest with Central and Northern California as a ve have one advantage," said Mr. Gregory, "that Nature does her own work. We have no nion, where all the codes and law books were be found. They were of easy access to all the lembers, and he was of the opinion that any ach proposition as the purchase of \$1,000 worth f codes was a silly, nonsensical and foolish outary of the people's money, unwarranted and rithout a precedent.

Another and decided advantage is our after a lengthy discussion, which was partici-After a lengthy discussion, which was partici-ated in by a number of Assemblymen, upon otion of Variel, the whole matter was laid weeks earlier than those of Southern California, a fact which many Chicagoans will be surprised to learn, inasmuch as they have always been led to believe that this portion of the State was adapted to fruit of a temperate clime. The forthcoming fair is promising of many novel and attractive stures. The tempting and luscious fruits will be arranged in all possible manner of shapes pleasing to the eye, and that, too on a most elaborate plan. There will also

> Major Beck Found Drowned. The San Francisco Post of last evening states that shortly after 9 o'clock vesterday morning George Howe picked up a dead body off Washington-street wharf. The face was so far destroyed as to render identification by that means impossible, and it was not until the body had been taken to the Morgue that, from letters found in the pockets, the body was proved to be that of Major Robert Beck, whose disappearance was chronicled yesterday. Major Beck left his home, 1921 Devisadero street, at o'clock in the afternoon of the Thursday before Christmas, and was not again heard of until his body was found this morning In his pockets were his gold watch and \$4 10 in coin. His keys, knife, glasses, scissors, rule and comb were likewise found. For some days before his disap pearance Major Beck was noticed to be acting strangely. He had been a sufferer for years from rheumatism and neuralgia, and it is supposed that, rendered insane by his troubles, he wandered away and drowned himself. Nearly all the letters found on the body related to the Jersey cattle in which Major Beck was dealing. He was a member of the Sacramento Association of California Pioneers, and on the informatton of his death being received the flag o ihe Association's hall was placed at halfmest. At a meeting of the Association last evening the following committee was appointed on resolutions: Wm. Johnston, H M. LaRue, Wm. P. Coleman. The committee appointed to attend the funeral, which will take place in San Francisco this afternoon, consists of Messrs. Luther, Farnsworth, Mott, Oschwald, Powers, Cal-

# Langford Colony! Langford Colony!

NOW READY FOR SETTLEMENT. Surveys, Plans, Pamphlets having been completed, this valuable Land is now

open to purchasers. THE ATTENTION OF ANY ONE CONTEMplating the purchase of a home is particularly called to the property. A visit to this property will satisfy you that it is all that it has been represented to be.

# Transportation and Markets.

Cheap and rapid transportation is of the ut most importance to those who are both producers and consumers. It cheapens all that he buys and enhances the price of all he produces. The "LANGFORD COLONY" is most advantageously situated in this respect. It is between two railroads that both connect with steamboats that run from the Sacramento and San Joaquin points to the Golden Gate. This gives the cheapest freight and passenger rates for the distance on this Coast. The markets for all kinds of pro ducts are good. The Canneries, Wineries and Fruit Dealers take all the Fruit raised, at highly remunerative prices. There is an unlimited demand for all the Wine, Raisins, Figs, Prunes Green, Dried and Canned Fruits that can be grown. Dairy Products, Fowls, Eggs and Vegetables find a ready sale. Every acre of this land when in bearing Fruit Trees or Vines will ne \$100 per acre. For further particulars apply to

WHEAT—Trade is narrowed down to small proportions. Asking prices are much in advance of the views of shippers, and transfers on export account are few. Buyers of magnitude are not to be found at over \$1 52½ \$\frac{1}{2}\$\$ ctl for ordinary No. 1 grades, though the figure is normial, as \$1 55 is the rate demanded by sellers, with no disposition to make even slight concessions. At the higher figure offerings are said to be rather liberal, and round lots could be secured if purchasers would come to the front. The wants of millers compel the payment of prices required by holders, and sales at \$1 57½ are reported to have been made for this particular line of custom. So long as dry weather prevails, it is not probable that holders will weaken in their opinions.

HEAD, FACE AND BODY RAW.

It commenced to use your CUTICURA REMEDIES has July. My head and face and some parts of my body were almost raw. My head was covered with seabs and sores, and my suffering was fearful. I had tried everything i had heard of in the East and West. My case was considered a very bad one. I have now not a particle of Skin Humor about me, and my case is considered winderfal Mes. S. E.
